I am unconditionally opposed to Wal Mart forming its own bank. I believe it will have a negative impact on local economies and will also create a dangerous concentration of power both commercially and financially. Moreover, Wal MArt already enters communities and destroys the fabric of local businesses. Wal Mart has no concern of the well being of a community and actually directly causes harm to those communities it infiltrates. Please stop Wal Mart from opening its own banks in our communities and stand up for the local communities that desperately need your assistance.

Thank You!
